MICHAL TARGIEL

SALESFORCE ARCHITECT

SUMMARY

Salesforce Architect with 6+ years of experience in enterprise-grade Salesforce implementations. Started as Salesforce Developer, then Technical Lead, and since 2024 acting as Salesforce Architect responsible for platform scalability, solution design, governance and integration strategy. Deep expertise in Apex, Lightning Web Components, integration patterns, automation, data modeling and performance optimization.

EXPERIENCE

Salesforce Architect

Enterprise Technology Delivery (Global scale)

2024 – Present

- Own overall Salesforce platform architecture, scalability and governance.
- Lead solution design for offline-enabled mobile and desktop applications.
- Define coding standards, review practices and performance optimization strategies.

Technical Lead

Enterprise Technology Delivery (Global scale)

2023 – 2024

- Led a 6-person engineering team delivering new platform features and integrations.
- Ensured high-quality Apex/LWC code through reviews, mentoring and guidelines.
- Improved reliability and maintainability of the Salesforce ecosystem.

Technical Lead

Enterprise Retail & Consumer Goods Program

2022 – 2023

- Led technical delivery within a cross-functional retail and consumer goods program.
- Owned solution design, code review process and release quality.
- Delivered features supporting retail operations and trade processes.

Technical Lead – Experience Cloud Accessibility (WCAG/ARIA)

Digital Experience Platform Program

2021 – 2022

- Delivered WCAG/ARIA-compliant Experience Cloud portal for global users.
- Modernized legacy Aura/LWC components to meet accessibility standards.
- Collaborated with UX to improve navigation and assistive technology support.

Salesforce Developer – HR & Partner Community

Enterprise HR/Partner Transformation Program

2021 – 2022

- Developed Experience Cloud features for employees and partners.
- Integrated Salesforce with SAP and legacy systems for HR and partner processes.
- Improved authentication, data flow and backend logic for key communities.

Michal Targiel – Salesforce Architect

Salesforce Developer – Multi-channel CRM Modernization

Retail / Multi-Brand CRM Program

2019 – 2020

- Built CRM features supporting multiple business units and brands.
- Implemented advanced Apex controllers, integrations and LWC components.
- Streamlined process automation and operational workflows.

MuleSoft Developer

Integration Engineering Team

2019 – 2020

- Developed integration flows connecting Salesforce, SAP and legacy systems.
- Created high-volume REST endpoints for B2B communication.

Software Developer (ERP / .NET / SQL)

ERP Systems Development Team

2011 – 2019

- Maintained ERP systems and delivered analytical tools.
- Developed integration components and internal applications.

CERTIFICATIONS

- Salesforce Certified Administrator (2023 – Present)
- Salesforce Certified Platform App Builder (2023 – Present)
- Salesforce Certified Platform Developer I (2023 – Present)
- MuleSoft (DataWeave & Integration Basics) (2022 – Present)
